## A message from the Minister of Government Services

As I have indicated before, I believe that the telephone directory is probably the most important single communications tool in government.

A good deal of thought and effort have been devoted over the years to make this book as effective as possible.

We hope that this new edition continues to meet our objective to make the information contained in the book easily accessible. By making the publication as inexpensive as possible, we can keep it reasonably current through frequent printings.

Responsibility for providing accurate input for the directory on a continuing basis remains with the senior information officer in each ministry. You can therefore help maintain a high standard of accuracy in the directory by communicating any listing changes to your ministry's information unit.

## GOVERNMENT TELEPHONE SYSTEMS

The Telecommunication Services Branch of the Ministry of Government Services provides telephone systems throughout the province for public servants to use in communicating with each other and with the public in the conduct of government business. At Queen's Park, both a Centrex telephone system for local service, and access to an Inter City Network for inter-city calling, are provided to serve government ministries and agencies in the Toronto area.

The Centrex system facilitates "direct-in-dialing", enabling those people calling from outside government, as well as internal callers, to bypass the Central Switchboard. This provides a faster, more efficient, and a more personal service for callers. The Central Switchboard does provide an information service for callers to the main government telephone number, in the course of answering enquiries and passing along callers as quickly as possible to the appropriate ministries and agencies. It is therefore most important that any directory listing changes be reported as soon as possible.

The Inter City Network is designed to provide telephone service between Queen's Park and centres outside Toronto, at a lower cost than long distance calling. This network, of course, should only be used for business purposes. When making a call from Toronto, the list of localities served (Page XVII) should be consulted, and if the municipality being contacted is listed, the Network should then be utilized. If the Network is busy, or if service is not provided to the municipality in question, then long distance should be used.

In the following outline, dialing procedures, good telephone habits, and methods whereby telephone service may be obtained, directory listings changed, etc., are discussed.

# **TELECOMMUNICATION SERVICES**

## **PROVISION OF SERVICES**

The newly-organized Telecommunication Services Branch provides a complete range of telecommunication services to all government users. In addition, its role is to coordinate and plan the rational evolution of government telecommunication systems, and to promote and protect the best telecommunication interests of government users. Services encompass telephone (local and inter-city), intercom systems, paging systems, radio telephone systems, teletype systems, data communication systems, radio systems, facsimile, cable, satellite and various other special telecommunication systems. New and improved common and shared data and network services are presently under development, and will be introduced as soon as available.

Services provided include those of both an operational and a consulting nature. Operational services include telecommunication systems design, systems/service acquisition, systems implementation, and the provision and management of common telecommunication services (Centrex services, Inter City Network). Telecommunication consulting services include system feasibility studies, systems planning, hardware and software evaluation, project management and coordination and both the preparation of request for proposals and the evaluation of supplier proposals.

To obtain additional information or assistance regarding these services, call the Telecommunication Services Branch at 5-6265 (detailed listings on page 54).

## **HOW TO ARRANGE FOR TELEPHONE SERVICES, INFORMATION LISTINGS AND DIRECTORIES**

Each ministry or agency has designated an individual as a Telephone Coordinator. This person's principal task is to coordinate the handling of all requests for telephone and intercom services, but also includes the responsibility for supplying government and municipal directories and for updating directory and switchboard information listings. In some ministries, a different person is responsible for updating the directory and switchboard information listings.

The role of these coordinators involves liaising with the Ministry of Government Services for the provision of these services. In the event your Telephone Coordinator is unavailable, additional information or assistance may be obtained directly from the Telecommunication Services Branch at 5-1411. (A list of Telephone and Directory Coordinators follows.)

## MINISTRY OF COLLEGES AND UNIVERSITIES

Mowat Block 800 Bay Street Toronto

*The Ministry of Colleges and Universities is comprised of four major divisions:*

*The University Affairs Division administers support funds to the 15 provincially assisted universities, Ryerson Polytechnical Institute, and the Ontario College of Art. The College Affairs and Manpower Training Division provides support to the 22 community colleges and the industrial training and apprenticeship programs. The Cultural Affairs Division administers support to the "open sector," including such institutions and agencies as museums, art galleries, public libraries, the Ontario Arts Council, the Ontario Science Centre and the Ontario Educational Communications Authority. The Archives of Ontario and the Ontario Heritage Foundation are also financed through the Ministry. The Common Services Division provides support services to facilitate the administrative functions of the other three divisions.*

## COMMERCIAL STANDARDS PROGRAM

*This program consists of five activities that provide for the regulation of financial and commercial affairs to promote a high level of ethical business conduct responsive to the needs of the buyer in the market place. This is achieved through disclosure to the public of the essential elements of business transactions including the issuing of securities, registration and licencing of persons dealing with the public to assure a high degree of competence and honesty in their dealings, and examination and surveillance of the financial standing and practices of firms. In addition this program provides services for incorporation of companies, administration of The Motor Vehicle Accident Claims Act in respect of the adjustment of claims and payment of damages occasioned by the operation of stolen, unidentified or uninsured motor vehicles, and provision for appeal hearings with respect to the matters of licencing under various acts administered by the Ministry.*

## MINISTRY OF HOUSING

### Whitney Block

(Location Exceptions Noted)

*The Ministry is charged with the responsibility of ensuring an adequate supply of housing at affordable prices – directing and co-ordinating all provincial efforts to meet the housing needs of Ontario residents, particularly for those of low and moderate incomes. To this end it must increase the supply of new housing by helping bring serviced land into production, improve existing housing, discourage speculation, broaden the housing mix, reduce the financial obstacles for home buyers, give fast approval on developments, encourage the creation of new rental accommodation and, through its rents-geared-to-income programs, find suitable housing for families and senior citizens of low and moderate means.*

ASSISTANT DEPUTY MINISTER  
HOUSING DEVELOPMENT

2nd Floor 60 Bloor Street W

*The following sections include the operations of Ontario Housing Corporation, Ontario Student Housing Corporation, and the Ontario Mortgage Corporation; they provide rent-geared-to-income accommodation for families and senior citizens, student housing, serviced lots for homeowner lease and purchase, and mortgage financing for builders and purchasers of homes and condominiums. The programs also encourage municipal land assembly and provide technical and*

Toronto M5S 1P8  
(local Exceptions Noted)

*A Crown Corporation established in 1964 under the Ontario Housing Corporation Act, OHC administers the Housing Development Act and the Elderly Persons Housing Aid Act. It comes in close contact with the public through its various rental shelter and home ownership programs. OHC builds, manages and otherwise finds rental accommodation for families and senior citizens through its subsidized rent-geared-to-income programs, and also makes houses and condominiums available for purchase at lower-than-market costs – frequently on land it rents under its lot-lease programs. It also develops land for future housing use.*
